The ALMA™ represents an evolution in seating.

We are designers, manufacturers, and innovators. ALMA™ embodies our passion for modern design and patented innovation. The ALMA™ Dynamic Reclining Chair redefines the seating experience with our signature Dynamic Recline technology. Engineered to hold you in any reclined position while the chair seat remains stationary. Our chair back moves down and inwards, fully supporting you throughout your recline. This innovative motion provides complete lumbar support in any position. ALMA™ is the perfect complement or centerpiece for any residential or commercial space.

ALMA™ 100

FEATURES

ENGINEERED FOR COMFORT DESIGNED FOR PERFORMANCE

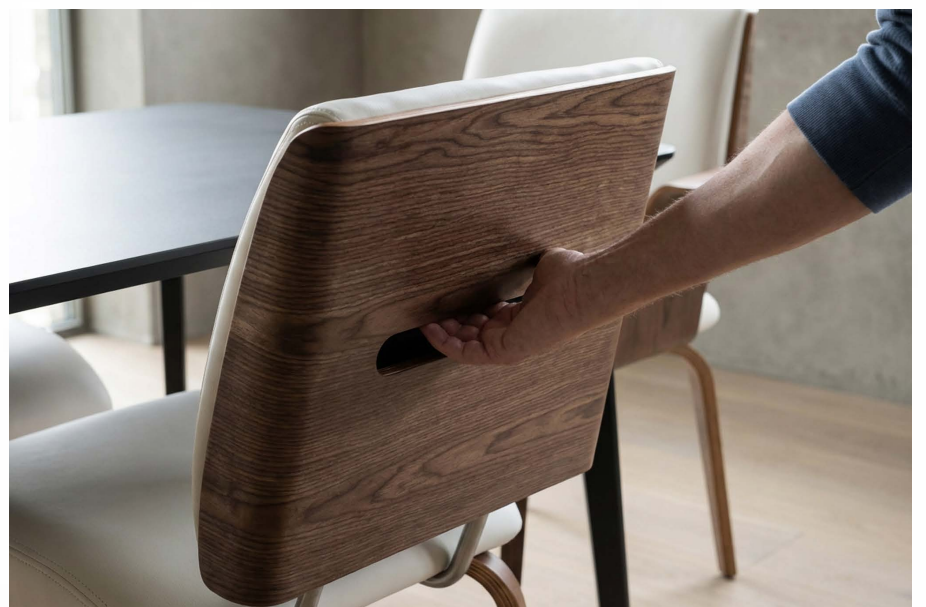

DYNAMIC RECLINE

Engineered to hold you any desired recline position, the back of the chair moves with you allowing you to enjoy complete lumbar support while the seat of the chair remains stationary.

INTEGRATED PULL SLOT

The integrated Pull Slot is engineered into the back of the chair for clean uninterrupted design while making the chair easy to move and reposition.

FOOT REST

The integrated foot rest is designed to provide personalized comfort and ergonomic support. When not needed, it slides neatly beneath the chair. (available in all chairs with the exception of Laminated Wood and Wood Sled)

ADJUSTMENT WHEEL

A concealed wheel allows the user to personalize the recline resistance.

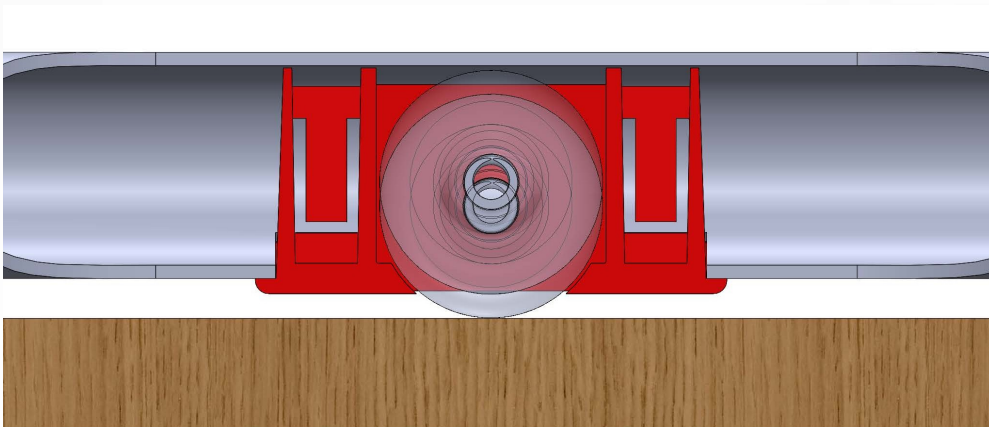

ADJUSTABLE HEADREST

The headrest offers a refined movement making it easy to accommodate different heights and seating preference.

RETRACTABLE WHEEL SYSTEM

Located in the bottom of the chair structure, the wheels allow for ease of movement. When seated the wheels retract, further chair movement is done with the glides. (only available in Tubular Sled and Wood Sled)

Willis Mullet

FOUNDER & CHIEF DESIGNER

With a relentless passion for design, engineering, and innovation, Willis Mullet is the creative force behind the Alma chair. His vision has always been to create seating that seamlessly blends timeless aesthetics with groundbreaking functionality. Willis has over 160 patents, a testament to his extraordinary ability to transform ideas into meaningful end products. Inspired by the belief that furniture should move with the people who use it, Willis developed the Alma chair to deliver both exceptional comfort and enduring style.

For Willis, inventiveness is never about complexity; it is about creating products that are intuitive, elegant, and effortless. Every Alma chair reflects this philosophy, combining advanced ergonomic performance with clean, sophisticated design. Willis Mullet's work is shaping the furniture industry through products defined by originality, craftsmanship, and forward-thinking. Alma chairs stand as the latest expression of his enduring pursuit of a better design.

Our extraordinary inventions. So far.

We constantly invent new products that add luxury and convenience to our customers' lives.

We are also committed to refining and adding new innovations to our products
as the home furnishings industry and customer needs change.
