Solar Motorized

LED

No Pinch Point

Designed for sophisticated outdoor living, the Halo Solar Motorized Umbrella combines intelligent technology, refined design, and commercial-grade durability to create an entirely new shade experience. The Halo showcases a new integrated LED lighting system which includes temperature control for your white lights plus RGB options, replaceable $\frac{3}{4}$ fiberglass ribs, increased solar capability, and an auto-close system for high winds. You can control the Halo with an app, a remote, smart home devices or 3rd party systems.

Bootsie™

An outdoor chair with patented dynamic reclining capability, this chair easily folds for ease of storage or transportation

Gray

- A patented smooth tension adjustment allows you to find the perfect comfort
- When folded, the chair presents an ergonomic handle to lift and carry the chair
- The nylon feet prohibit sliding or marks on any surface
- Reclines from 11 degrees to 30 degrees.
- Back is designed to articulate with you as you recline – no shirt pulling
- Powder coated aircraft grade aluminum frame
- Self-locking when open to prevent chair from folding while in use
- EVA Pad is UV and stain resistant

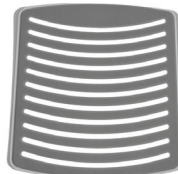

Available in gray and white with 4 different EVA PAD color choices

Canopy Cover

Protect from dirt, dust, and other outside elements while not in use. This cover, made of durable materials, is designed for ease of application. An internal fiberglass rod adds vertical reach and effectively promotes safety while you cover your umbrella.

Made For The Outdoors. Made in America

At Current Luxury manufacturing is more than building a product, it's about creating outdoor solutions engineered to perform beautifully for years to come.

Our outdoor products are designed and manufactured in the USA, providing us greater control over quality, craftsmanship, and innovation throughout the manufacturing process. From precision engineered components to carefully selected outdoor materials, every detail is considered for durability, performance, and refined design.

This commitment to quality helps ensure every Current Luxury product will withstand the demands of residential, hospitality, and commercial environments.

By manufacturing in America, we can remain closely connected to every stage of production, continually refining our products, maintaining consistent quality, and responding quickly to the needs of our customers.

Our extraordinary inventions. So far.

We constantly invent new products that add luxury and convenience to our customers' lives. We are also committed to refining and adding new innovations to our products as the home furnishings industry and customer needs change.
